

All our multiday tours are well balanced between time to spend on day tours and free time which you can use for yourself. The important sights are covered within excursions, which are included in the general itinerary.

However, for those who'd like to spend even more time exploring the beauty of Spanish and Portugal cities, we have below the list of optional excursions which we may offer during the tour.

IMPORTANT NOTES:

- The tours below may or may not be offered. We always try to give you the opportunity to visit even more places, but if a particular group is initially small, the guide will not offer the tours because he/she knows that minimum won't be reached. If tours are offered, that would be done on the way to relevant cities (extra tours for Seville will be offered on the way to Seville, etc).
- Also, if the tour is offered, but a required minimum is not reached, the tour will not take place.
- Payment: if a minimum is reached and the tour will take place, you can pay the guide in cash or with credit card.

All prices are below the tour description, and are given per person. You can pay directly to the guide with a cash or credit card.
